## Fidelity Share Class Change

In 2017, investments in the Fidelity Contrafund and Growth Company Commingled Pools were moved from Class 1 shares to Class 2 shares to take advantage of lower investment costs, saving participants an estimated \$1.1 million annually.

Ohio DC continues to see asset growth in these two commingled pools, and participants are once again eligible for a lower cost share class with the same investment strategy. The annual expense ratio on these investment options will move from 0.38% to 0.35%. Participants invested in the Fidelity Contrafund Commingled Pool and Fidelity Growth Company Commingled Pool will move from Class 2 shares to Class 3 shares resulting in over \$750,000 in additional annual savings. Both investment options will move on Friday, December 14. Participants affected will receive a letter confirming this change.

To find out more about the various investment options available through Ohio DC, call our Service Center at 877-644-6457 to learn more about the services we provide, or to schedule a visit from one of our Field Account Executives. You can always visit our website at [Ohio457.org](http://Ohio457.org) for additional information.
