## The Low Costs of Ohio DC

Everyone has different needs in retirement, but the low cost benefits of Ohio DC can help your employees live a comfortable lifestyle when they get there. Ohio DC offers participants a select group of investment options, to make selecting investments less difficult. We use an expert investment consulting firm that considers a wide variety of factors, including fees, as part of a comprehensive evaluation process in selecting and monitoring investment options.

Participants in Ohio DC benefit from the size of the Program, which allows us to offer professionally managed institutional share classes of many mutual funds. This means that because of the size of the Program, your employees will have access to lower-costing investments than those available to individual investors.

The United States Department of Labor says a difference of only 1 percent in fees can make a huge difference in an employee's retirement income. Ohio DC's low cost options offer them the opportunity to potentially save more money for retirement, by not having to contribute as much of their retirement savings to fees. Our LifePath Portfolios are a great example of a low cost, highly diversified investment strategy that will help your employees grow their retirement savings.

Would you like to learn more about what Ohio DC can do to help your employees save for retirement? If you want to speak to someone at Ohio DC, send us an email at [Ohio457@Nationwide.com](mailto:Ohio457@Nationwide.com) or call our Service Center at 877-644-6457 to find out how you or your employees can access our informational videos, webinars, handouts, etc, or to speak with one of our Account Executives.
