New Ohio DC Overview Video

One of our ultimate goals at Ohio DC is to reach out to new hires, as well as any current public employees who may not be taking advantage of the benefits that we have to offer, when it comes to saving for retirement.

Many people don't realize all of the benefits we have available and how we can help them save for a comfortable retirement. To that end, if you just

started a new position, or if you've just been waiting until the time was right, we've put together an overview video that explains some of what we do, what tools and calculators you can use and how our highly trained staff can help. The video is only a few minutes long, features information from two of our Retirement Planning Specialists and will give you a quick explanation of what we're all about.

To give you a little background, the Ohio DC Overview video was written and produced with the goal of giving potential participants a better understanding of what Ohio DC has to offer. We also explain why it's so important to take advantage of a supplemental savings plan and what a retirement gap can mean for people when they enter retirement.

You can view the whole video [here](#). It has been featured in a blog post on the OPERS website and in posts on Ohio DC's social media pages. The video has also been sent to the other public pension plans for their use, so you may see it in other publications.

If you would like to learn even more about what we can do for you, give us a call at 877-644-6457 to talk to an Account Executive, or to schedule an appointment with one of our Retirement Planning Specialists. You can always visit our website at www.Ohio457.org.

Investing involves market risk, including possible loss of principal.
