Start Saving for Retirement Today

We meet a lot of people at Ohio DC who tell us that they wish they had started saving earlier in their careers. Sometimes they felt uncomfortable with investing, sometimes they thought they still had plenty of time. We try to remind everyone that it's never too early to start saving.

One of the best ways to get people to start saving is to get them personally engaged in planning their own retirement. Here at Ohio DC, we have a team of retirement experts dedicated to doing just that. If you would like to learn more about what our experts have to offer, this [link](#) is a great place to start.

Part of our team is made up of Retirement Planning Specialists (RPS), they are Chartered Financial Consultants (ChFC) who help participants plan for retirement at no cost. Aside from their extensive background in the financial sector, they are salaried staff, so you never have to worry about them being influenced by commissions or sales quotas. Our RPSs aren't here to sell you something. They're here to work with you to help you gain knowledge about saving for retirement and planning for the challenges you may face when you get there. At Ohio DC, our mission is to guide you, our participants, along the path to retirement income security and our RPSs are one of the best resources available to do just that.

Whether you have already started saving for retirement or have just started thinking about it, Ohio DC has the resources to help you save for a more comfortable retirement, call our Service Center at 877-644-6457 to learn more about the services we provide, or to schedule a visit with one of our Retirement Planning Specialists. You can always visit our website at Ohio457.org to learn more.

Investing involves market risk, including possible loss of principal.
